LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

XIT Telecommunication & Technology, Ltd., Inc. (the “Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its member services tariff, which is approved by the Public Utility Commission of Texas (“Texas PUC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Texas PUC. The Company consistently meets or exceeds those standards and provides reports to the Texas PUC, in accordance with the Texas PUC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require transparency of network management practices, performance, and the commercial terms of broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Company’s compliance with CPNI rules and a description of the Company’s operating procedures that ensure compliance are filed annually with the FCC.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

XIT Telecommunication & Technology, Ltd. is able to function in emergency situations for both voice and broadband service. The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Company is able to reroute traffic around damaged facilities. Although the Company's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's 2015 reasonable comparability benchmark for voice services was \$47.48, which includes the federal subscriber line charge ("SLC").¹

In 2015, in the exchanges served by XIT Telecommunication & Technology, Ltd. ("the Company"), the highest single-line residential local rate was \$21.45, which includes the federal SLC. Therefore, the Company's pricing of fixed voice services in 2015 was less than the reasonable comparability benchmark of \$47.48.

¹ *Wireline Competition Bureau Announces Results of 2015 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, Public Notice, WC Docket No. 10-90, DA 15-470 (rel. April 16, 2015).

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

XIT Telecommunication and Technology (the Company) offers qualified Lifeline subscribers a discount of \$14.40 (comprised of the federal discount of \$9.25, state discount of \$3.50, and an additional state area discount of \$1.65) to a stand-alone residential local exchange service line rate.

In all exchanges served by the Company, the Lifeline rate for single-line residential voice service, including any mandatory extended area service charge and the federal subscriber line charge, is \$7.05 (\$21.45 less the \$14.40 discount).

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer's choosing. Customers may elect to subscribe to toll blocking at no charge. The Company does not disconnect the service of Lifeline subscribers for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills.

Lifeline Program reductions do not apply to additional services such as information-related services and custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

Lifeline customers may subscribe to any residential voice telephony service package that is generally available to the public and will receive a Lifeline discount of \$14.40 off the regular price of the package.

The attached pages from the Company's Telephone Services Tariff include the terms and conditions for Lifeline Service.

III. APPLICATION OF RATES

A. General

1. The rates and charges listed in this Section apply to Local Exchange Service provided by the Company in its certificated service area as specified by the Company's Certificate of Operating Authority application approved and on file with the Public Utility Commission of Texas.
2. The local exchange service rates and charges specified in this Section are for Basic Local Exchange Service and facilities only. Rates and charges for ancillary services and facilities not specified in this Section are presented in other sections of this tariff.
3. Unless otherwise specified, the rates and charges quoted in this Section are for a minimum contract period of one month. These rates and charges are payable in advance and provide unlimited flat rate calling within the exchange area.
4. Local access trunks may be required for local access connections terminating in, or for use with some types of customer-provided equipment.

B. Lifeline Program

The Lifeline Program is a retail local service offering designed to make telephone service available at reduced rates to qualifying low-income customers.

1. General
 - a. A qualifying low-income customer subscribing to the Lifeline Program shall receive federal and state reductions to their monthly tariffed residential local exchange access line rate. When a Lifeline customer subscribes to a package of services, those same reductions will apply to that portion of the package rate that is for basic network service. In a two-line package, only one line will receive the Lifeline reductions.
 - b. Nothing in this section shall prohibit a customer who is otherwise eligible for the Lifeline Program from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications services.
 - c. Lifeline Program reductions do not apply to surcharges, taxes, long distance service, 976 and other information related telecommunications services, and optional services such as custom calling features. Customers may obtain these services, where available, at their discretion.
